

South Campus Recognition for
MR. AND MRS. FREDERICK M. NICHOLAS

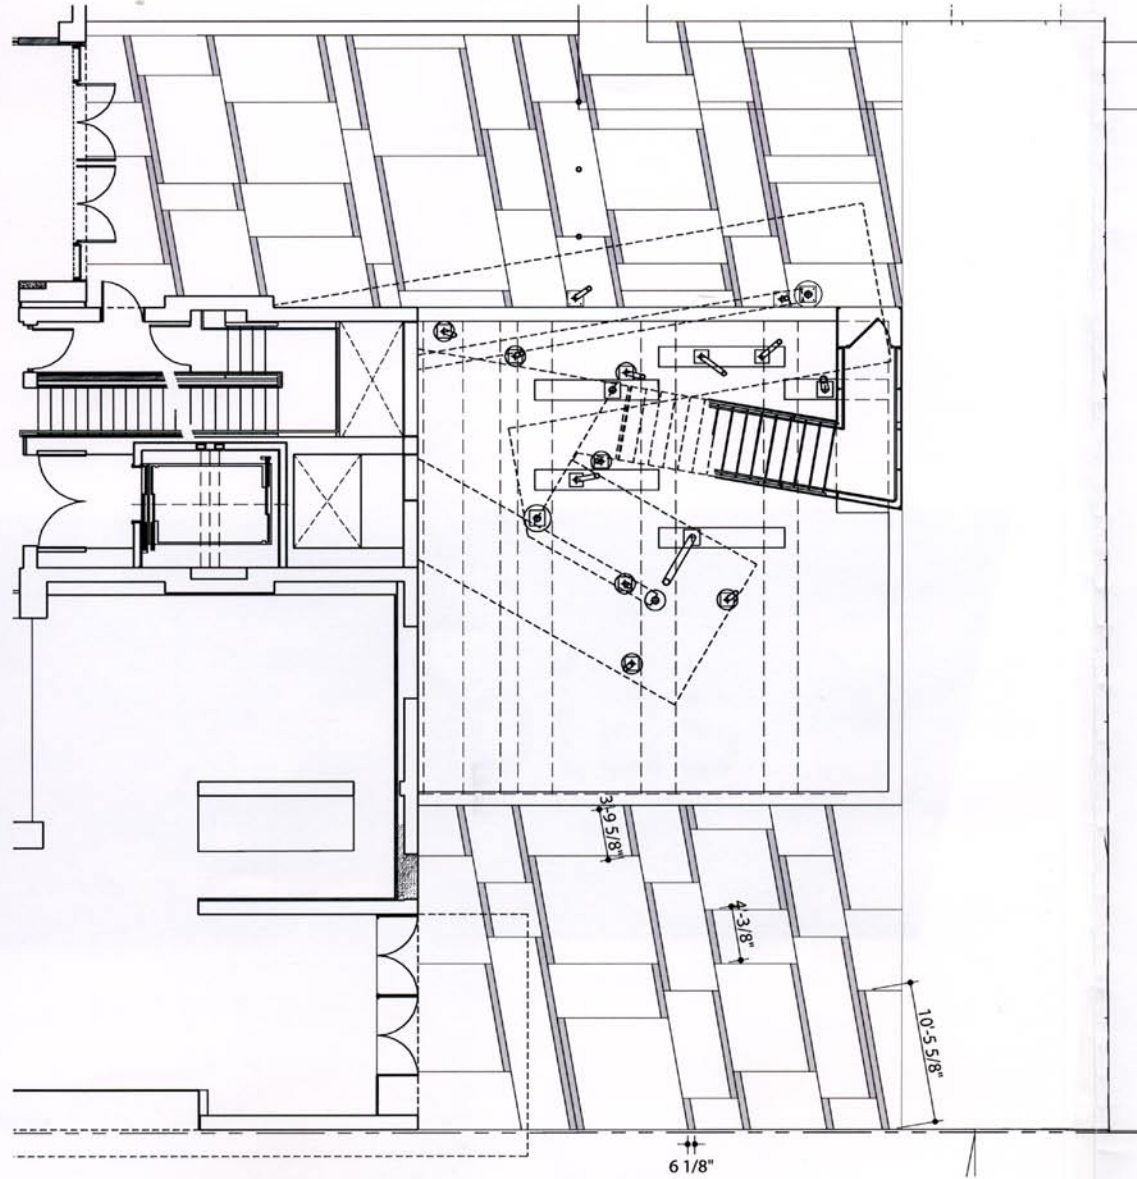

South Campus Paver Recognition

As part of our comprehensive plan to acknowledge and thank donors, the architects Daly Genik created an elegant, asymmetrical recognition system at the principal entrance to the new South Campus.

The architect-designed "Paver Recognition System" will not only be visually inspiring, but will also be a fitting tribute and legacy for those who have supported the development of the new South Campus, thereby enhancing both Art Center and the local community.

The Pavers will be fabricated at the end of 2004, and will be unveiled in the spring of 2005 as part of Art Center's 75th anniversary celebration.
